PROJECTS

- Portfolio Website** - Built a modern, responsive personal portfolio website using React.js and Vite to present projects, technical skills, and professional background.
- Spotify Clone** - Developed a responsive and interactive Spotify-inspired web application using pure HTML, CSS, and JavaScript. Implemented core music player features and playlist-based song selection, delivering a smooth and engaging user experience across devices.
- PassOP** - Built a responsive and secure password manager application using React.js and Vite, supporting complete CRUD operations and safe storage of credentials in browser local storage.
- iTask** - Developed a responsive and user-friendly to-do application using React.js and Vite, enabling efficient task management with full CRUD functionality.
